Veřejná dětská hřiště

Public Playground Equipment

Plníme jejich sny...

We make their dreams come true...

DÁREK
VOLNÁ VSTUPENKA
UVNITŘ

Vážení zákazníci,

dostává se Vám do rukou páté tištěné vydání katalogu obsahujícího prvky pro dětská hřiště a zahradu dle certifikátu EN 1176 určené k užití na veřejných hřištích, mateřských školkách, školních hřištích, parcích aj. Již osmým rokem pro Vás vyvíjíme prvky pro dětská hřiště tak, aby byly nejen bezpečné, odolné, ale především cenově dostupné. Většinu herních prvků nabízíme jako stavebnici /dřevo-kov-plast/, kterou dokáže sestavit řemeslník znalý práce se dřevem sám. U dětských hřišť je certifikován nejen výrobek samotný, ale především montážní postup tak, aby vyhovoval všem platným normám EN 1176. Z větší části jsou dětská hřiště **vyráběna naší společností v České republice**, ze zemí EU dovážíme některé komponenty a designově zajímavé hrací prvky. Pokud se Vám naše hřiště líbí a uvažujete o výběru modelů, nabízíme Vám jako součást našeho servisu další doplňkové služby většinou ZDARMA.

Za kolektiv společnosti HEROLD a Regionální partnery
Radek Herold

Dear customers,

in your hands you hold the fifth printed publication of playground equipment catalogue for public playgrounds, school playgrounds, gardens, kindergartens and parks, based on EN1176 Playground Equipment Standard. We have been developing the playground components for already eight years to provide you more resistant and safer equipment for better price. Most of the equipment is sold as a set containing components of wood, metal and plastic – thanks to this every artisan with average knowledge of the wood can construct it on his own. Not only the products, but also the assembling process is certificated – again based on EN1176 Playground Equipment Standard. Most products are developed by our company in the Czech Republic; some components are imported from the countries of the EU. We offer you some playground services for FREE and we believe that you will find the most suitable equipment for your playground.

By the name of Herold company's team and our regional partners,
Radek Herold

KOMPLETNÍ SERVIS PRO VÁS:

Ke kvalitním, bezpečným a certifikovaným prvkům dětských hřišť nabízíme kompletní servis.

- vypracování nabídky
- realizace
- záruční a pozáruční servis
- povinné roční kontroly

FULL SERVICE FOR YOU:

We offer full service containing consultancy, quotation, realization and post-guarantee service and of course mandatory annual verification to all our customers.

If you have some ideas or suggestions, you can call: +420 602 352 780, Radek Herold

BEZPEČNOST A KVALITA

Veškeré hrací prvky mají požadované certifikáty ČSN – EN 1176 a atesty.

SAFETY AND QUALITY

All our play components have the required certification ČSN – EN1176 and other attestations.

BEZPEČNÝ POVRCH

Většina herních prvků je navržena tak, aby nevyžadovala zvláštní dopadovou plochu tj. herní plocha je do 1 m výšky (postačuje udržovaný trávník). Pro ostatní prvky s vyšší hrací plochou nad 1 m je nutný speciální tlumicí povrch podle EN 1176-2009 viz tabulka.

PLAYGROUND SAFETY SURFACE

Most of the playground components are designed to a maximum height of 1 m, so grass is sufficient. For other components, with the height more then 1 m, a special damping surface is required based on EN 1176-2009 certificate. You can see all the types of surfaces in the chart.

běžně užívané materiály vhodné jako tlumicí povrch pod dětská hřiště – EN 1176 ***commonly used materials suitable as a damping surface based on EN1176 certification.***			
		hloubka dopad. zóny *height of the playground components*	max. výška pádu *maximum height of the fall*
trávník / půda *grass / land*			do 1 m *to 1 m*
kůra *bark*	zrno 20–80 mm *grain 20–80 mm*	300 mm	od 1 m do 3 m *from 1 m to 3 m*
písek *sand*	zrno 0,2–2 mm *grain 0,2–2 mm*	300 mm	od 1 m do 3 m *from 1 m to 3 m*
štěrk *rubble*	zrno 2–8 mm *grain 2–8 mm*	300 mm	od 1 m do 3 m *from 1 m to 3 m*
gumové podložky *rubber tile*	podle zkoušek HIC *according to HIC attestations*		kritická výška pádu podle zkoušek *critical fall height according to tests*

DŘEVO – Masivní mimostředové smrkové dřevo (nepraská od jádra). Na dřevěné nosné konstrukce jsou použity lepené BSH hranoly s hnědou impregnací. **PLASTY** – Testované plasty s UV filtrem (menší blednutí barev), celoprobarvené bez toxických látek. Veškeré plasty jsou mrazuvzdorné a není třeba je přes zimu ukrývat. **KOV + SPOJOVACÍ MATERIÁL** – Většinou zinkované nebo komaxitem upravené kovové součástky. Pevnost spojů zaručují kvalitní spojovací materiály. Nepoužíváme sponky ani hřebíky – pouze kvalitní spojovací materiál: pozinkované vruty a pevnostní vruty RAPID – Torx a chránicí bezpečnostní krytky. 👍 **PROVAZY A SÍTĚ** – Pro výrobu provazů a sítí jsou použita kvalitní pevnostní certifikovaná lana ∅ 16 mm s ocelovým jádrem a opletem z polypropylenu. 👍

WOOD *– spruce or pine eccentric solid wood that doesn't split or crack. Wood used as a supporting structure is brown impregnation.* ***PLASTIC*** *– tested plastic with UV (Ultraviolet) filter which slows down the process of colours fading. Our plastic is colourfast without toxic substances and frost resistant, so it can stay outside also in winter.* ***METAL + FASTENERS*** *– metal components, mostly galvanized or powder coated by komaxit. Thanks to the high-quality fasteners the connections are very strong. We do not use clamps or iron nails, but only galvanized screws, strength screws RAPID-Torx and safety capping strips.* 👍 ***ROPES AND NETS*** *– for making the ropes and nets we use very strong and certificated ropes (diameter 16 millimetres) from polypropylene with steel core.* 👍

Z každého Vámi zakoupeného produktu posíláme 10,– Kč na pomoc potřebným. Více o našem programu „POMÁHÁTE S NÁMI" na webových stránkách.

Every time you buy a product from our company, we send CZK 10 to people who need help. You can find more information about our project "YOU HELP WITH US" on our websites.

CO MŮŽETE OČEKÁVAT / *WHAT TO EXPECT:*

Veškeré uvedené zboží a ještě mnohem více si můžete v klidu objednat na našich e-shopech:

viz zadní strana obálky

You can buy all products you see in the catalogue on our websites:

back cover

Doprava po celé ČR **ZDARMA** (nad 4000,– Kč)

Veškeré zboží (malé i velké) Vám ZDARMA /nad 4000,– Kč s DPH/ dovezeme na místo určení, po celé ČR. Více o dopravě na našich webových stránkách.
Doprava v EU dle ceníků na webových stránkách.

If you buy products with the total price higher than CZK 4 000, the shipping in the Czech Republic is for FREE - it does not depend on the place of delivery or on the size of the product. For the information about shipping in the EU, please visit our websites.

V průběhu celého roku Vám většinu výrobků doručíme od 1 do 3 týdnů po celé ČR.

We deliver most products within three weeks throughout the year (within the Czech Republic).

2D a 3D návrhy

ZDARMA Vám zpracujeme zajímavé řešení pro Vaše nové hřiště s návrhem bezpečného umístění hracích prvků. Stačí nám napsat parcelní číslo ev. jednoduchý nákres a my Vám zpracujeme 2D nákres.
Zpracujeme 3D návrh a navrhneme zajímavá a bezpečná řešení pro Vaše nové hřiště. Cena 3D návrhu je 500–1500 Kč podle rozsahu práce.

2D and 3D designs

We will work out a project for you and suggest safe arrangement of the playground equipment for FREE. If you send us a parcel number or a simple drawing, we will work out a 2D design for your project.
We also create 3D designs. Price for the 3D designs ranges from CZK 500 to CZK 1500 according to the size of the project.

Provedení kompletní montáže vč. stavebních prací po celé ČR

Montáž může provádět náš Regionální partner nebo pracovník minimálně vyučen v oboru práce se dřevem. Postup prací musí být dodržen přesně podle montážních instrukcí (Záruka a certifikace se vztahuje pouze na stavbu montovanou dle schváleného návodu). Základy hracích sestav (s dřevěnou konstrukcí) není nutno u většiny betonovat.

Organising the complete assembling and construction work in the Czech Republic

Everyone who has some experience with working with wood can do the assembling of the playground systems. If you wish, we can send you a contact of our regional partners who do the assembling for you. Warranty and the certifications relates only on the assembling process according to the manual. Most of our wooden constructions do not need cement concrete connection with the ground.

Přirozená dopadová plocha = udržovaný trávník

velká část našich výrobků je navržena do výšky „dopadu" 1 m, proto nevyžaduje zvláštní dopadové plochy, které cenu realizovaného hřiště výrazně zvýší

Natural damping surface *= maintained lawn*

Most of our products have 1 meter as the maximum fall height, so they do not require any special damping surface. You can use maintained lawn and the playground will be safe for children and much cheaper.

Pravidelná údržba
Instrukce o pravidelné údržbě obdržíte ZDARMA v návodu u každého hracího prvku. U větších celků provede proškolení Vašeho pracovníka údržby náš revizní technik. Eventuálně můžete starost o pravidelnou údržbu nechat na nás. Např. promazání ložisek, dotažení spoj. materiálů, drobné opravy, úpravu dopadových ploch...

Regular maintenance
You will get instructions about regular maintenance together with the product for FREE. In case of bigger components, our expert will train your maintenance worker to care of the playground. If you wish we can do the maintenance of your playground in the Czech Republic for some fee (bearing lubrication, fasteners tightening, minor repairs, impact surface arranging, etc.).

24-36 měsíců ZÁRUKA

Prodloužená záruka:
Na přání prodlužujeme záruku na naše herní prvky až do 5 let
(cca 5 % z ceny/rok záruky).
V ceně prodloužené záruky je i program „Bezpečné hřiště".

Extended warranty
For the wish of our customers we extend our warranty up to 5 years (about 5% from the price for a year of warranty).
Project "Safe Playground" is included in the price of the extended warranty.

BEZPEČNÉ HŘIŠTĚ

Program **Bezpečné hřiště** = odborná montáž a servis po celé ČR*
– pravidelná roční kontrola ZDARMA po dobu záruky!
– zaškolení provozovatele zařízení k jeho bezpečnému provozování a vybavení potřebnými dokumenty (Provozní řád a údržba, Návštěvní řád a jiné) poskytujeme ZDARMA
– na veškeré výrobky se vztahuje norma EN 1176 (1177)

*více o programu **Bezpečné hřiště** na www.monkeys.cz

Project „Safe Playground" is available only in the Czech Republic!

Upozornění: před samotnou instalací herní sestavy je třeba si prověřit na katastrálním úřadě informace o tom, že na pozemku samotné stavby nejsou vedeny žádné inženýrské sítě!!! Potvrzení musí být písemné a předané montážní firmě před začátkem stavby!!! Pokud budou na pozemku vedeny sítě, musí zajistit zákazník jejich vytyčení, tak aby mohla montáž bezpečně proběhnout.

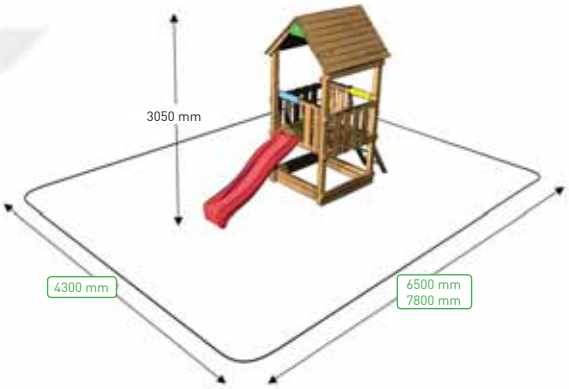

***Warning:** before assembling the playground systems it is necessary to verify in the land registry that there are no engineering infrastructures in the area! Testification must be written and given to the assembling company before the installation begins. In case there are some engineering infrastructures in the area, you must locate it so that the installation is safe.*

* Změna cen vyhrazena. O aktuálních cenách se informujte na webových stránkách výrobce nebo REGIONÁLNÍCH PARTNERŮ.
** Price is subject to change without prior notice. You can find our current prices on the manufacturer's websites or ask our regional partners.*

DOPADOVÉ ROHOŽE

Revoluční řešení pro:

nová dětská hřiště

venkovní fitness

obnovu starých hřišť

BĚŽNÁ ÚDRŽBA

UPOZORNĚNÍ PRO UČITELKY MŠ DĚTI JIŽ NEBUDOU "NOSIT" PÍSEK ANI KAMÍNKY DO TŘÍD

SAF & GRAS

SAF 735,– za 1 m²
GRAS 692,– za 1 m²

Více než jeden a půl milionu čtverečních metrů SAF-GRAS bylo instalováno po celém světě. Bezkonkurenční cena bezpečnostního tlumivého povrchu.

Cena včetně sítě ke zpevnění trávníku, proti vyšlapání (s DPH a bez montáže).

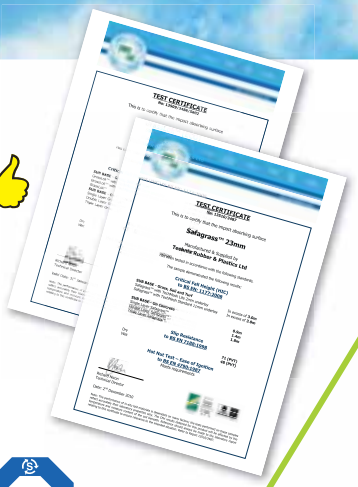

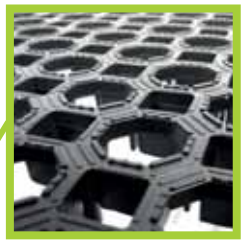

VÝHODY (BENEFITY)

- Tvarovaná protiskluzová buněčná struktura s excelentní pevností a odolností proti skluzu
- Nevyžaduje speciální dovednosti nebo nářadí, umožňuje rychlou a jednoduchou instalaci
- Nevyžaduje speciální podkladový materiál
- Ideální pro rozrůstání zelených ploch
- Je možné použít ke zpevnění svažitých terénů
- Vhodné pro celoroční užití, extrémní, větrné i teplotní podmínky
- Vhodné i pro bezbariérový přístup
- 10 let záruka
- Vyrobeno z pevných a recyklovaných materiálů
- Může být instalováno celoročně
- Bezúdržbové, neohrožuje životní prostředí
- C.F.H.

DOPADOVÉ ROHOŽE
IMPACT MATS

- Kritická pádová výška do 3 m (23 mm)
- Protiskluzové
- Třída hořlavosti
- Vyrobené z 80 % recyklované gumy
- Doporučené pro bezbariérové přístupy
- Vodopropustné

GRAS
1 x 1 m x 23 mm (12 kg)
černá

+ otěru odolnější
+ vhodnější pro pojezd těžší techniky

SAF
1,5 x 1 m x 23 mm (14 kg)
černá

+ pocitově měkčí
+ možnost barevné výplně
+ vhodné i jako rohožka

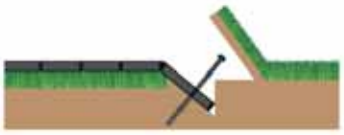

podkladní pletivo
určeno pod GRAS a SAF – vždy součástí

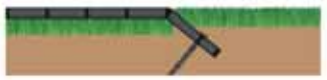

INSTALAČNÍ PRŮVODCE

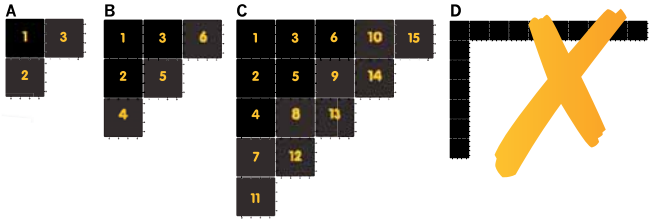

PŘED INSTALACÍ: Doporučujeme SAF-GRAS instalovat na zatravněné plochy se zpevňovacím pletivem, které zabraňuje zašlapání vlastního SAF-GRAS do země. Jestliže se na místě objevují díry nebo nerovnosti, doporučujeme zasypat pískem nebo zeminou, aby byla plocha kompaktní pro pokládku. Během instalace je možné rovnou sít trávu. Buďte opatrní – nezatěžujte místa nábytkem aj. v místech, která byla předem vyplněna.

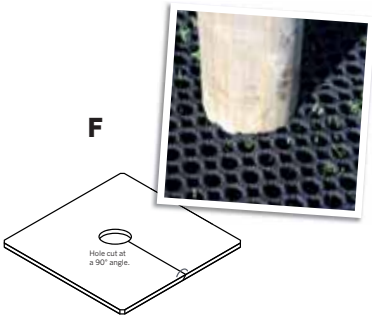

INSTALACE GRAS:

1. Položte zpevňovací pletivo po celé ploše, to zabrání zašlapání rohoží do půdy.
2. Položte rohože Gras přes zatravňovací pletivo, zacvakněte oka dohromady. V zimních měsících si pravděpodobně budete muset spoje podložit a zacvaknout pomocí paličky.
3. Rohože seřízněte kolem zařízení a překážek. (viz obrázek)
4. Kolem obvodového kraje zredukujete rohože Gras přibližně o 150 mm. Pomocí rýče seříznete zeminu v úhlu 45° do hloubky 75 mm, vznikne klínovitý kanál. Pokračujte po celém obvodu.
5. Položte rohože Gras (kraj 150 mm) do klínovitého kanálu.
6. Pomocí kolíků bezpečně upevněte podložky do země.
7. Pro další upevnění do země doporučujeme 3 kolíky na dlaždici v diagonální linii (jeden v protilehlých rozích a jeden uprostřed). Na dobře udržovaném trávníku použijte více kolíků, zafixují dlaždici v původní poloze.
8. V extrémních případech použijte lepidlo na zajištění zámkových ok.
9. Položte klín trávníku zpět na své místo. (viz obrázek)
10. Prostor stále zavlažujte, abyste zajistili optimální růst trávy. Po několika týdnech, tráva rychle proroste přes rohože a udělá je prakticky neviditelné.

ROZLOŽENÍ PŘI POKLÁDCE:

Začněte pokládat rohož, obr. A. Jakmile položíte první dlaždici, ostatní dlaždice zdvojnásobují předchozí položenou dlaždici, obr. B a C. Vzniká „pyramida". V případě potřeby hrany seřízněte. NEPOKLÁDEJTE rohože jako na obr. D, vznikají pak problémy s pokládkou zbylé rohože.

SEŘÍZNUTÍ ROHOŽE:

Řez dlaždicí k nosným tyčím provádějte v úhlu 45°. Při řezání otvorů pro sloupky nosných zařízení, řežte v úhlu 90°, viz obrázek F. Po instalaci dlaždice sepněte rozříznutou část elektrikářskou páskou.

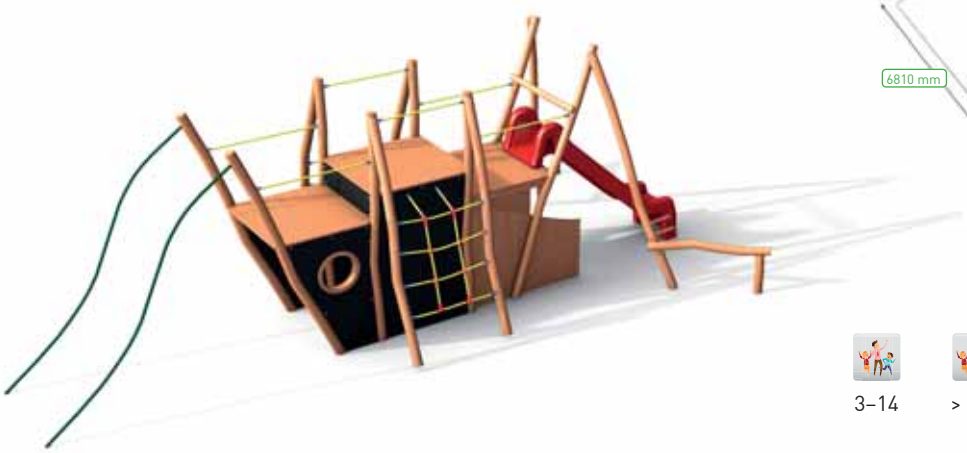

POKLÁDKA GRAS V EXTRÉMNÍCH PODMÍNKÁCH:

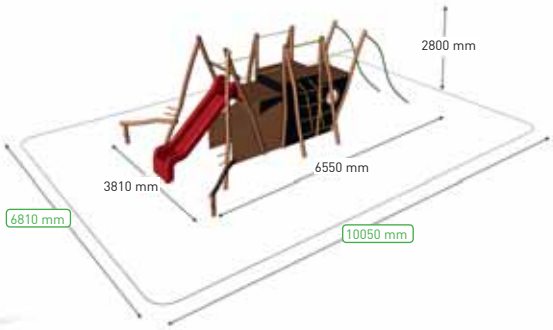

Ideální teplota pro pokládku Grass je v rozmezí od 10 °C do 30 °C. Vlivem teploty se dlaždice mohou roztahovat i smršťovat. Skladujte dlaždice v teplotních podmínkách podobným podmínkám při instalaci. Skladujte a instalujte dlaždice ve stínu, pokud je teplota vyšší než 30 °C. Pokud za teplotních podmínek vyšších než 30 °C nemůžete instalovat a skladovat dlaždice ve stínu, ochlazujte dlaždice studenou vodou.

POMŮCKY PŘI INSTALACI:

Svinovací metr, nůž, gumové rukavice, kladivo, rýč, provázek (barvu ve spreji), aku vrtačka a bit 6 mm.

POMŮŽEME REALIZOVAT DOTOVANÁ HŘIŠTĚ Z PROGRAMŮ

ZPRACUJEME:

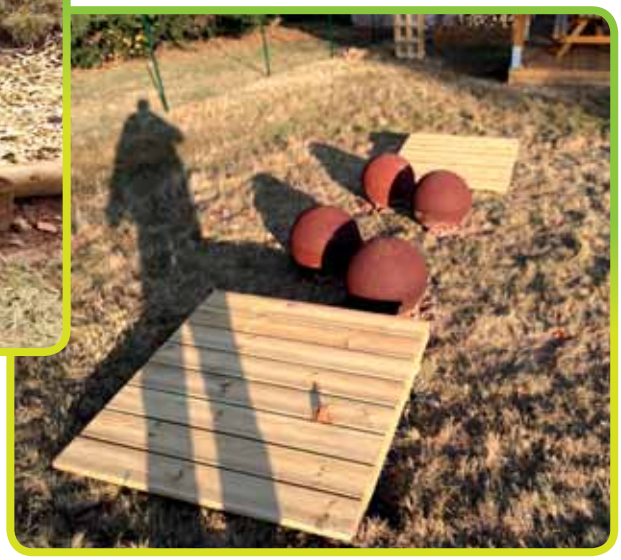

- návrh hřiště
- 3D projekt
- rozpočet
- kompletní zpracování projektu pro vyhlášený dotační titul

Příklad: PŘÍRODNÍ HŘIŠTĚ MŠ HEŘMÁNKOVICE dotované z programu Ministerstva životního prostředí.

UKÁZKA REALIZACE HŘIŠTÍ NA ZAKÁZKU

Tato hřiště jsou ukázkou zakázkové výroby přesně na přání.

SOUČÁSTÍ DODÁVKY BYLA:
– studie a návrh hřiště
– konzultace a prověření terénu
– vlastní realizace
– certifikace autorizovaným certifikačním ústavem TZÚS
– uvedení hřiště do provozu – Provozní a Návštěvní řád
– proškolení pracovníků údržby – Kniha kontrol a údržby
– ZÁRUČNÍ a POZÁRUČNÍ roční povinné kontroly ZDARMA

CUSTOM ORDER OF PLAYGROUND
EXAMPLE OF OUR PLAYGROUND SYSTEM
This playground is custom order – everything was for the wish of the customer.
INCLUDED:
– concept and design of the playground
– consultancy and landscape auditing
– realization
– certification by supremacy certificated institute TZÚS
– starting-up of the playground – Functional and visiting order
– training of the service workman – The book of control and service
– GUARANTEE and POSTGUARANTEE year compulsory service FOR FREE
